Introduction to Internet of Things

Aditya Pampana

Noida International University | B TECH | Computer Engineer |
Looking for Internship/Training
Gautam Buddha Nagar, Uttar Pradesh, India

Summary

I am an undergrad student in Computer Science Department;
Graduating in May 2020.
I am in my final year presently looking for Internships/Training in
Data Science.
Earlier I have worked as intern in LUDIFU (as Social Media
Marketing) and also at DU Updates (as HR).

Technical Skills
- C , C++, Java(core), Python
- HTML, CSS
- DBMS, MySQL
- RDBMS with Oracle 10g
- MS office
- Internet of Things

Experience

LUDIFU (Let Us Do It For U)
Internship
March 2017 - April 2017 (2 months)
New Delhi Area, India

LUDIFU stands for Let Us Do It For U
LUDIFU is an app which allows you to upload 1 to 100 photos from your phone
and gets them printed onto a Photo Book.

Worked as an intern and following were my responsibilities:
✓ Understand the importance of branding and communication for media and
PR.
✓ Co-ordinate with and participate in relevant discussions.
✓ Daily report to the management team.

DU Updates
Human Resources Intern
February 2017 - March 2017 (2 months)
New Delhi Area, India

DU Updates is a youth oriented news, entertainment, music & fashion website.

Worked as an intern and following were my responsibilities:
✔ Recruit new candidates from sources and assign the work.
✔ Daily report to the HR team.
✔ Social media Marking and promotions of website at all social media platforms.
